

[view some examples from our Small Business Websites](#)

### **Complete Web Site:**

Expand your business with a professionally managed web site. Your business deserves a strong online presence. We help you offer your products and services for online. We usually provide a free sample (Mockup) of how your website is going to look like. You won't make any payments to us unless you are satisfied with the work and design.

In case you already have a web site, we can use the existing information to redesign all pages including a new company logo. You can basically point to any existing website you can find on the world wide web and we will be able to design a similar one for you.

### **Flash Animation:**

If you can dream it we can do it! We are your source for Flash animation. Whether you need a splash page, a few decorative graphics, or an all-inclusive package, we'll help you achieve the look you need.

### **Search Engine Optimization:**

The best website money can buy is worth nothing if it can't be found. We specialize in the fine art of search engine rankings. Our goal is to put you in the top 10 ranked websites in your field on every major search engine. Try it for yourself: Enter our company name in a Google search and find us in the top 10 of the 6,910,000 listings generated by our company name.

### **Web and Software Programming:**

We provide custom software solutions for your individual business needs. Our job is to make yours easier through user-friendly business applications. Our custom made software can automate existing procedures within your firm. Improve your efficiency and your bottom line. Just let us know what you'd like to be able to do, and we will make it happen. For example, we developed a simple program that would cut the time for recording a transaction (bank related) from an average of 35 minutes to less than 7 minutes. The program ensured greater accuracy because less human steps were required to complete the task.

(Prices differ based on the complexity of your project)
